

- **Instant Restore**
- **Easy installation**
- **Multiboot**
- **5 partition**
- **Windows compatible**

Description

For those who would like a powerful protection and system restore solution at the best price of the market, CUSTODIUS STAR, is the card with all the same security features that are available for the rest of the product line.

STAR is easy to install and configure, and is the ideal solution for home users, small businesses and even cybercafes.

CUSTODIUS STAR is a PCI card developed on a dynamic buffer system which allows you to get the most out of the new Microsoft systems, included Windows XP and Windows 2003.

Applications

CYBERCAFES and SCHOOLS. Avoid any type of misconfiguration (even the CMOS), virus, trojans, unwanted software installation. Just reboot the PC to clean the system.

RESIDENTIAL. Convenient to use, instant, absolute safe and worry saved. If you want to save the new systems, you just reboot your PC and press hot keys. Custodius STAR realizes multi-boot on the same HD so that every family member could have an isolated system on the same computer.

COMPUTER MAINTENANCE and DISTRIBUTORS. with CUSTODIUS STAR installed, it not only improves the approval of the stability of software and computer, but also avoids lots of valueless after-sale service, and it do no harm to the running speed.

STAR
